

UC MEXUS – CONACYT
Postdoctoral Research Fellowships
for Mexican Ph.D.s at University of California Campuses
and for UC Ph.D.s at Mexican Institutions

2017-2018

Deadline for Receipt of Proposals: March 6, 2017

*A program established under the 1997 UC-CONACYT Agreement
of Cooperation in Higher Education and Research*

The University of California Institute for Mexico and the United States (UC MEXUS) and Mexico's National Council for Science and Technology (CONACYT) are pleased to announce a joint program to support postdoctoral researchers at the University of California or at Mexican institutions of higher education or research.

The primary objective of this program is to advance academic scholarship by emerging Mexican researchers and UC scientists and scholars in the early stages of their careers, after obtaining their Ph.D. In addition, the program seeks to support existing or developing binational academic networks by enhancing collaborative research projects between UC and Mexican faculty and institutions through the innovative involvement and training of new researchers.

In keeping with these goals, postdoctoral applicants will be considered who will be actively participating in a research project or training program at the host UC campus or Mexican institution, with an emphasis on using the stay to advance their own academic and professional development as well as to solidify future binational research ties and networks. Applicants are encouraged to connect their proposed stays with projects submitted to the UC MEXUS-CONACYT Collaborative Grants Program competition.¹ The program also seeks to support projects that include matching funds, either from the host campus or institution or from other funding sources.

Dependent on the pool of applicants, reviewer recommendations, and available funding, up to 18 fellowships are offered with a preferred even division between Mexican and UC postdoctoral researchers. Fellowships for Mexican postdoctoral researchers support training and research with a UC host faculty member in the natural, physical or social sciences, humanities, engineering, or computer science. Fellowships provide a minimum of \$46,677 and maximum of \$52,156, depending on the scholar's qualifications and experience, for a 12-month period at any UC campus, research center, institute or laboratory.

¹ Consult the description for this program in the 2017 UC MEXUS-CONACYT Call for Proposals at the UC MEXUS website, ucmexus.ucr.edu, under funding opportunities.

Fellowships for UC postdoctoral scholars support training and research at a Mexican institution of higher education and/or research in the natural, physical or social sciences, humanities, engineering, or computer science. UC postdoctoral scholars conducting their postdoctoral stays in Mexico will receive a minimum of \$46,677 and maximum of \$52,156, depending on the scholar's qualifications and experience, for a 12-month period.

UC MEXUS will provide funds toward the postdoctoral scholar's health care insurance at the HMO level and benefits.

Postdoctoral scholars may begin their residencies no earlier than September 1, 2017 and end no later than April 1, 2019. They must begin their postdoctoral stay within 90 days of their originally proposed starting date and complete their stay no later than within 12 months or less from that date. This program does not allow fellowships to be deferred to a subsequent academic year if the residency cannot be completed within this timeline. Successful applicants may apply for a second year of funding through this program. However, continuation proposals are very competitive and will compete against new 2017 proposals for the same limited pool of awards and are not guaranteed funding. (See page E-5 for guidelines for submitting continuation applications.)

The postdoctoral fellowship is a full-time, in-person commitment at the host institution. Activities for all candidates should include scientific and academic development at the postdoctoral level, with the purpose of providing unique expertise for the applicant, increasing knowledge and access to new techniques and methodologies for the applicant's future home institution, and/or to initiate a long-term program of research and collaboration between Mexican institutions and the University of California. Teaching and student assistance may be included, if appropriate for increasing academic ties, but the focus of the postdoctoral stay should be based on participation in a research project or program. Preference will be given to applicants whose proposals clearly indicate a strong rationale for conducting a full-time stay at a particular host institution.

Eligibility

The applicant must earn their Ph.D. by April 21, 2017 in order to be eligible to apply for the postdoctoral fellowship. Mexican citizens who have earned their doctorate from an institution other than the University of California may apply only for residencies at a UC campus and must be hosted by eligible UC faculty or researchers.² Applicants who have previously received postdoctoral funding from CONACYT should contact CONACYT directly to determine eligibility for this program.

UC doctoral graduates³ may apply only for residencies at Mexican research institutions and must be hosted by a Mexican faculty member or researcher who holds a full-time academic/research appointment in a Mexican institution of higher education and/or research. Applications are particularly sought for residencies at Mexico's state universities, research institutes or centers

² UC faculty or researchers may find the criteria for eligibility under the UC Policy on Eligibility to Submit Proposals at <http://www.ucop.edu/raohome/cgmanual/>

³ Mexican students previously supported by UC MEXUS-CONACYT under the cost-sharing program are not eligible for this program.

located outside of Mexico City that are registered in the National Register of Institutions and Scientific and Technological Institutes (RENIICYT).

Applicants may connect their fellowships to projects submitted to the UC MEXUS-CONACYT Collaborative Grants competition. However, the fellowship proposal must be unique to this program and applicant, i.e., it may not be a copy of any proposal submitted to the collaborative grants program or by other fellowship applicants connected to the same research group.

UC and Mexican hosts should provide evidence of their responsibility in ensuring that they will integrate the postdoctoral scholars into the academic community by facilitating their participation in research, instruction, and contact with other researchers, faculty and students. They should indicate that their departments will provide the postdoctoral scholars access to appropriate research facilities, office space, and equipment and communications. Applications that include several sources of support apart from UC MEXUS-CONACYT are particularly encouraged.

Applicants who have 5 years or more of previous postdoctoral research experience are not eligible to apply to this program.

Conditions of Award of Fellowship

UC MEXUS-CONACYT postdoctoral researchers are expected to participate in a faculty-directed research project or to advance their own professional training under faculty supervision. The fellow must be affiliated with the host institution during the entire tenure of the fellowship. It is expected that during their tenure, postdoctoral scholars may be requested to participate in seminars, conferences and educational activities organized by UC MEXUS-CONACYT as part of this program.

Each fellowship is expected to result in the completion of the proposed work within the project period, and a final narrative report of activities must be submitted jointly by the fellow and host faculty member. Failure to do so will prevent the recipient from receiving additional awards from UC MEXUS-CONACYT programs. The support of UC MEXUS and CONACYT, through FONCICYT, shall be acknowledged in proposals, publications, conference materials, exhibitions, videotapes, or other products of the fellows. A copy of each such product must be provided to UC MEXUS as the Office of Record for the UC MEXUS-CONACYT postdoctoral fellowship program.

Submission of Applications

Eligible Mexican or UC postdoctoral candidates applying newly for the UC MEXUS-CONACYT postdoctoral research fellowship for the first time must submit their applications using the electronic submission site at ucmexus.ucr.edu. (Proposals for continuations of currently-held fellowships should refer to separate instructions in the section below, "Submission of Continuation Applications.") The items required in a complete application set are listed below. Each of the items must be completed in order to submit the entire application online. Each applicant is responsible for securing all appropriate approvals and signatures *prior to the submission of their application*.

In addition, two sets of one complete proposal packet (original plus one copy) with all required items must be submitted to UC MEXUS by March 17, 2017 for the application to be considered complete.

The proposal packet must include hard copies of all files uploaded to the electronic submission site. The following items are required as part of the proposal packet, for both the online submission and the two hard copies sent to UC MEXUS:

- ❑ **Online application cover sheet** with an abstract in English *and* Spanish. (The application cover sheet is available at the online submission site. Applicants must create an online account in order to access the cover sheet.)
- ❑ **Curriculum vitae of applicant** (not to exceed five pages), including educational achievements, academic positions and/or awards, a list of publications and current works in progress.
- ❑ **Abbreviated curriculum vitae of faculty host** (and co-host if applicable) including publications and research interests in the last five years and indication of ability to direct postdoctoral research (not to exceed five pages).
- ❑ **Letter of intent from the faculty host** (and co-host if applicable) indicating research responsibility and support. The letter of intent should provide evidence of the host's familiarity with the applicant's project plan, indicate host support for the proposed activities, and discuss the potential benefit of the stay to the scholar and host institution (not to exceed 2 pages).
- ❑ **Project plan** for work to be undertaken (not to exceed five pages).* Provide a summary in English or Spanish, describing the proposed research and the specific goals and objectives of the work to be undertaken. Applicants should address the significance of the proposed research within the discipline. They should also discuss the work the specifics and locale of the work to be performed, plans for continuation of the research, as well as the potential impact of the proposed research on the professional and academic development of the applicant. The project plan should include a discussion of the methodology and relevant literature as well as any disciplinary, interdisciplinary and international collaborative approaches. Please note that UC MEXUS and CONACYT look favorably upon host involvement and commitment to the postdoctoral applicant's proposed activities. However, postdoctoral proposals must be original projects formulated by the applicant.

*Reviewers will be instructed not to read beyond 5 pages of the project plan.

- ❑ **Timeline** (not to exceed one page) detailing research and work to be undertaken during the course of the postdoctoral stay. The timeline should clearly specify where and when academic and research-related activities will take place.
- ❑ **Official letter of invitation** to a UC department, laboratory, research center, or institute or into a Mexican institution of higher education and/or research registered in the National Register of Institutions and Scientific and Technological Institutes (RENIICYT). This letter serves as an official authorization from the department or research institute where the postdoctoral candidate will be conducting his or her stay. It must be written by the department chair or by the director of the research institute hosting the candidate's residency.
- ❑ **If applicable, official evidence that the postdoctoral candidate belongs to the Sistema Nacional de Investigadores (SNI) of Mexico with the applicant's registration number.**
- ❑ **If applicable, an official letter from the applicant's home institution indicating that they hold a full-time appointment and will be released for the time requested.**

- ❑ **Certification of completion of the Ph.D. degree.** If the candidate has not yet completed the doctoral degree, he or she must submit a letter from their dissertation advisor indicating that the Ph.D. will be completed by April 21, 2017. Also, the applicant must submit evidence of the successful completion of the Ph.D. to UC MEXUS by April 21, 2017, no later than 5:00p.m.

Supporting letters that *must be uploaded* and sent separately include:

- ❑ **Two letters of reference** in English or Spanish addressing the applicant's research accomplishments and ability to undertake a postdoctoral research program. One letter preferably should be from the applicant's dissertation adviser. Information regarding uploading letters separately will be provided on the electronic application site. Applicants must provide this information to those individuals who will be providing letter. Letters should be addressed to the UC MEXUS-CONACYT Review Committee and, after being uploaded to the electronic submission site, they should be sent directly to UC MEXUS at the address below.

Within 10 working days following the electronic submission deadline of March 6, 2017, send two hard copies (original plus one copy) of a complete application set with all required materials listed above in one package to the following address:

UC MEXUS – Postdoctoral Fellowships Program
3324 Olmsted Hall
University of California
Riverside, CA 92521 USA
Attn: Dr. Wendy DeBoer; tel: (951) 827-7339

Deadline for receipt of applications

To be considered, proposals must be submitted to the electronic site not later than **5:00 p.m. Monday, March 6, 2017**, and the two hard copies of the complete proposal packet must be received by **March 17, 2017**. Hard copies of proposals not previously submitted electronically will not be accepted, nor will late submissions, faxes, e-mail attachments, incomplete, or subsequently revised proposals. The copies sent to UC MEXUS must match the text and information submitted in the online version of the proposal. Hard copies that do not match materials submitted electronically will not be included for review.

Submission of Continuation Applications

2015-16 and 2016-17 UC MEXUS-CONACYT postdoctoral fellows who wish to extend their fellowship may apply for a second year continuation of the research fellowship. However, continuation proposals will compete against new 2017 proposals for the same limited pool of awards, are very competitive and are not guaranteed funding. Applicants seeking a second year of funding must submit **all of the following materials during two periods**:

To be submitted to the electronic site not later than **5:00 p.m., Monday, March 6, 2017**:

- ❑ All continuation applicants must submit an **Intent to Apply** form electronically by March 6, 2017. This form indicates the applicant's intent to formally apply to UC MEXUS-CONACYT for second-year funding. Applicants who do not submit an **Intent to Apply**

form by March 6, 2017 will not be considered for funding.

To be submitted to the electronic site not later than **5:00 p.m., Monday, April 3, 2017 (for continuation applications only)**:

- All continuation applicants must submit an updated **Letter of Intent** (not to exceed 2 pages) from the faculty host addressing research and activities undertaken during the current fellowship period, need for second-year funding, and potential for future productivity by the postdoctoral scholar. This letter must be written on official letterhead and signed by the host.
- All continuation applicants must submit an updated **Official Letter of Invitation** (not to exceed 2 pages) indicating official departmental authorization for the proposed extended research stay. The letter must be written by the department chair or by the director of the research institute hosting the candidate's residency. The letter must be written on official letterhead and signed by the chair or director.
- All continuation applicants must submit an **Updated Project Plan** (not to exceed 5 pages) based on the originally submitted Project Plan and including substantial detail about accomplishments during the current postdoctoral fellowship period, reasons for seeking the extension, and specifics and locale of work to be completed during a second year with a timeline. *Please note that strong consideration will be given to research completed thus far as well as the potential for continued productivity and need for a second year stay.*
- All continuation applicants must submit a **Timeline** (not to exceed one page) detailing research and work to be undertaken during the course of the postdoctoral stay. The timeline should clearly specify where and when research-related activities will take place.
- Updated **Curriculum vitae of applicant** (not to exceed five pages), including educational achievements, academic positions and/or awards, a list of publications and current works in progress.
- Updated **Abbreviated curriculum vitae of faculty host** (and co-host if applicable) including publications and research interests in the last five years and indication of ability to direct postdoctoral research (not to exceed five pages).
- If applicable, an official letter from the applicant's home institution indicating that they hold a full-time appointment and will be released for the time requested.***

Two hard copies (original plus one copy) of the Intent to Apply form, Letter of Intent, Official Letter of Invitation, Updated Project Plan, Timeline, Curriculum Vita, and Official Letter of Release (if applicable) must be received by **April 3, 2017** at the following address:

UC MEXUS—Postdoctoral Fellowship Program
3324 Olmsted Hall
University of California
Riverside, CA 92521 USA
Attn: Susana Hidalgo; tel: (951) 827-4744

Review

UC MEXUS and CONACYT are committed to the principles of peer review and parity in the review and selection processes. Each proposal will be reviewed, evaluated, and rated by a committee of faculty members and/or researchers from Mexican and UC institutions representing expertise in relevant topics. Proposals should be written for a committee of broadly based expertise and interests. Appropriate bibliographies and supporting documents should be provided.

In addition to standard review criteria such as clarity, quality, and feasibility of the proposed work during the fellowship period, reviewers will consider the qualifications of the applicant, the potential for the establishment of long-term collaborative activities with the host campus or institution, the relevance of the proposed work to the UC MEXUS-CONACYT program and its significance for society and for the advancement of science and scholarship. Reviewers will look for project design that leads to development of research programs and resources in UC or Mexican institutions.

UC MEXUS and CONACYT provide no pre-review of proposals, and reviewer comments on individual proposals are not provided following the competition and final decisions.

It is strongly recommended that applicants review the proposal writing suggestions and frequently asked questions at our website: www.ucmexus.ucr.edu (under resources).

For additional information contact:

CHECKLIST
POSTDOCTORAL FELLOWSHIPS

Proposals must be submitted using the electronic submission process available on the UC MEXUS website at *ucmexus.ucr.edu*. Instructions for uploading proposal items are available on the website.

Proposal checklist to be completed on the electronic submission website by **Monday, March 6, 2017** for new applications only (for continuation applications, see page E-5):

- o Application cover sheet
- o Curriculum vitae of applicant
- o Abbreviated curriculum vitae of faculty host (and co-host if applicable)
- o Letter of intent from faculty host (and co-host if applicable)
- o Project plan
- o Timeline
- o Official letter of invitation to the host department or institution
- o *If applicable*, official evidence that the postdoctoral candidate belongs to the Sistema Nacional de Investigadores (SNI) of Mexico.
- o *If applicable*, an official letter from applicant's home institution indicating that they hold a full-time appointment and will be released for the time requested.
- o Certification of completion of the Ph.D. degree

Supporting materials that *must be uploaded* and sent separately include:

- o Two letters of reference: Information regarding uploading letters separately is provided on the electronic application site. Letters should be addressed to the UC MEXUS-CONACYT Review Committee and, after being uploaded to the electronic submission site, should be sent directly to UC MEXUS at the address below.

To be considered, proposals must be submitted to the electronic site not later than **5:00 p.m. Monday, March 6, 2017** and the two hard copies of the complete proposal packet must be received within 10 days of that deadline, i.e., by **Friday, March 17, 2017**, at the address below.

UC MEXUS – Postdoctoral Fellowships Program
3324 Olmsted Hall,
